

# KEDIA ACADEMY

Dear Sir/Madam,

We are excited to introduce a value-driven opportunity for your students to gain in-depth knowledge of market behavior through our comprehensive Technical Analysis Course. This program is designed to build a strong foundation in chart reading, trend analysis, price patterns, and indicators, essential tools for understanding market movements and making informed trading decisions. It equips learners with the skills needed to analyze securities, time their entries and exits, and navigate financial markets with confidence.

## Course Details

**Course Title:** Technical Analysis

**Total Duration:** 45 days

**Structure:** Engaging sessions practical learning, interactive discussions & Q&A

**Final Certification:** NISM Certification

## Course Objectives

The Technical Analysis course aims to equip learners with the skills to read charts, identify trends, and use indicators and patterns to predict price movements. By the end, students will confidently apply strategies, manage risk, and time trades across various asset classes.

### TRAINING

Kedia Academy's Technical Analysis Course blends expert guidance, live market analysis, and hands-on charting to help learners understand market trends and price action. This practical approach builds confident, data-driven traders.

### MONITORING

Kedia Academy offers personalized mentorship and expert guidance to help learners excel in trading, research, and consultancy roles within the financial markets.

### NURTURING

Kedia Academy supports aspiring traders with ongoing mentorship and personalized guidance, helping them build confidence, improve decision-making, and thrive in technical trading.

### GUIDING

Kedia Academy offers step-by-step guidance to help learners think independently, choose the right trading path, and confidently pursue careers or ventures in financial markets.

### DEVELOPING

Kedia Academy prepares future-ready traders through technical skills, real-market exposure, and strategic insights, empowering them to lead, innovate, and trade with confidence.

# TECHNICAL ANALYSIS
